Eric,

I misplaced my copy of your book, and wondered if you have any more copies available for purchase?

I have been doing quite a bit of historical research on Frederick Meyer of Meyers & Co, and understand you have a CCD marked Meyers & Co in your book.

Hope this finds you in good health.

Regards, Steve

Steve:

We have tried to avoid the sale of our few leftover copies of our Coin Scale book. We are very much interested in any material you have as to Frederick Meyer of Meyers & Co. If our recollection is correct, Frederick Meyers moved from Philadelphia to the New York City area and operated there. If you have any additional data, we would be most interested in learning of it.

I just had my 103rd birthday and seem to have most of my marbles at present. May you have similar luck.

Eric

Eric, it is great to hear from you, especially to know that you have all your marbles. I turn 70 on Saturday, and I would love to be able to match your success.

How about if I send you everything I have on Meyer, and you sell or give me a copy of your book if you are happy with what I have found?

Regards, Steve
